Dear Krakow students.

I've visited you a week ago and was inspired from your Jewish project, through the Forum for Dialogue.

For me, as an Israeli, as a daughter of a Jewish-pole, it was so touching to see you guys making research and then guiding us all through your <sup>Jewish</sup> history of your hometown.

To see you so enthusiastic about it. To see that you are now so familiar with your past was really wonderful.

I want to thank you for your hospitality, and please continue doing such inspiring work.

Sigal Farber,

Herzliya
